JOURNAL OF RHEOLOGY

Contents
Volume 23, 1979

ISSUE NO. 1

Flow and Thermal Stability of Rigid PVC
J. C. Chauffoureaux, C. Dehennau, and J. van Rijckevorsel 1

Motion and Rupture of a Porous Sphere in a Linear Flow Field
P. M. Adler and P. M. Mills 25

The Analysis of the Entrance Flow into a Slit. II. Experimental
R. Racano, T. Mitslal, L. Buteau, G. Lei, and W. Philippoff 39

Determination of Elastic Parameters For Human Fetal Membranes
C. E. Miller, J. P. Lavery, and T. A. Donnelly 57

NOTES

Estimation of the First Normal Stress Difference from Shear Stress Data in Polymer Rheology
Y. Isono, H. Kajiura, and M. Nagasawa 79

Abstracts of the 48th Annual Meeting of The Society of Rheology 83

Information for Contributors 120

ISSUE NO. 2

Effect of Flocculation in the Dilatant Flow for Aqueous Suspensions of Titanium Dioxides
K. Umeya and T. Kanno 123

Two-Dimensional Internal Flows of Polar Fluids
M. T. Kamel, P. N. Kaloni, and E. M. Tory 141

Nonlinear Viscoelastic Behavior of Poly(methyl Methacrylate) in Torsion
G. B. McKenna and L. J. Zapas 151

Overview of Selected Oil Recovery Processes
R. T. Johansen 167

The Role of Coalescence Phenomena and Interfacial Rheological Properties in Enhanced Oil Recovery: An Overview
D. T. Wasan, J. J. McNamara, S. M. Shah, K. Sampath, and N. Aderangi 181

An Overview of Mobility Control in Micellar/Polymer Enhanced Oil Recovery Processes
K. D. Dreher and W. B. Gogarty 209

An Equation for Stress Relaxation During Crazing
J. B. C. Wu and N. Brown 231

Continuum Mechanical and Statistical Approaches in the Mechanics of Granular Materials
S. C. Cowin and M. Satake 243

Abstracts from the *Journal of The Society of Rheology, Japan* 257

ISSUE NO. 3

Molecular Weight Effects in Die Swell and in Shear Rheology
R. Racin and D. C. Bogue 263

Viscoelastic Effects in Flow through Porous Media
M. Barboza, C. Rangel, and B. Mena 281

Viscoelastic Properties of Entangled Polymer. IV. Binary Blends of Monodisperse Homopolymers
D. Soong, M. Shen, and S. D. Hong 301

Nonlinear Dynamic Viscoelasticity
R. L. Powell and W. H. Schwarz 323

Viscoelastic Vibrating Reed Under Gravity
R. D. Glauz 353

NOTES

On the Evaluation of Rheological Constitutive Equations in a Paper by Tsai and Darby
M. M. Denn 371

Rebuttal to Denn's Comments on the Paper by Tsai and Darby
R. Darby 375

Viscometric Flows and Corotational Stress Relations
R. R. Huilgol 383

Abstracts of the 49th Annual Meeting of The Society of Rheology 387

Abstracts from the *Journal of The Society of Rheology, Japan* 417

ISSUE NO. 4

New Universal Extensional Rheometer for Polymer Melts. Measurements on a Polystyrene Sample
H. Münstedt 421

Extrusion of Defatted Soy Flakes—Model of a Plug Flow Process
B. K. Jasberg, G. C. Mustakas, and E. B. Bagley 437

On the Time–Temperature Superposition Principle of Dilute Polymer Liquids
N. Phan-Thien 451

Flow Birefringence of Polymer Solutions in Time-Dependent Field
K. Osaki, N. Bessho, T. Kojimoto, and M. Kurata 457

Determination of Dynamic Storage and Loss Compliances from Creep Data
D. J. Plazek, N. Raghupathi, and S. J. Orbon 477

The Irreversibility Assumption of Network Disentanglement in Flowing Polymer Melts and its Effects on Elastic Recoil Predictions
M. H. Wagner and S. E. Stephenson 489

Comparison of the Rheological Properties of Concentrated Solutions of a Rodlike and a Flexible Chain Polyamide
D. G. Baird and R. L. Ballman 505

Flow of Gases through Ultrafine Capillaries: A Comment
W. M. Jones 525

Nonlinear Stress Relaxation of Polyisobutylene in Simple Extension and Recovery After Partial Relaxation
C. R. Taylor and J. D. Ferry 533

Information for Contributors 543

ISSUE NO. 5

A Method for Viscosity Measurements of Concentrated Polymer Solutions in Volatile Solvents at Elevated Temperatures
R. A. Mendelson 545

Studies on Droplet Deformation and Breakup. I. Droplet Deformation in Extensional Flow
H. B. Chin and C. D. Han 557

Rheological Behavior of High-Resin-Level Plastisols
G. E. Williams, J. T. Bergen, and G. W. Poehlein 591

Flow Birefringence of Polymer Solutions in Time-Dependent Field. Relation between Normal and Shear Stresses on Application of Step–Shear Strain
K. Osaki, N. Bessho, T. Kojimoto, and M. Kurata 617

Shear Stress at Wall and Mean Normal Stress Difference in Capillary Flow of Polymer Melts
S. Okubo and Y. Hori 625

NOTES

Local Stretch History of a Fixed-End–Constant-Length-Polymer-Melt Stretching Experiment
R. W. Connelly, L. J. Garfield, and G. H. Pearson 651

Abstracts from the *Journal of The Society of Rheology, Japan* 663

ISSUE NO. 6

Preface 667

Surface Elasticity and Viscosity of Red Cell Membrane
R. M. Hochmuth and W. L. Hampel, III 669

Resistance of Erythrocyte Flow into Pores
P. L. Blackshear, Jr., T. J. Christianson, R. J. Majerle, and F. F. Vargas 681

Erythrocyte Rigidity as a Factor in Blood Rheology: Viscoelastic Dilatancy
G. B. Thurston 703

Use of a Rheological Technique to Evaluate Erythrocyte Membrane Alterations
E. A. O'Rear, L. V. McIntire, B. O. Shah, and E. C. Lynch 721

Rheological Factors Influencing Platelet Interaction with Vessel Surfaces
V. T. Turitto, H. J. Weiss, and H. R. Baumgartner 735

Approaches to the Modelling of the Hydrodynamic Properties of Rigid Biomacromolecules: Some Quantitative Comparisons
M. Tirrell and J. Torkelson 751

Dynamic Rheological Studies of Coagulation and Fibrinolysis
J. P. Kirkpatrick, L. V. McIntire, J. L. Moake, and D. L. Peterson 769
